*We deliver agile software
development teams as a service.*

PORTFOLIO

Colorado Springs is home to the **Cheyenne Mountain Zoo**, the "Highest zoo in America," at an elevation of 6,800 feet above sea level.

Named #6 Best Zoo in North America by **USA TODAY** 10Best Readers' Choice Awards, **Cheyenne Mountain Zoo** is home to more than 800 animals, representing over 200 species, including more than 30 that are endangered. This Colorado Springs zoo welcomes more than 575,000 visitors every year.

ISSUE:

One of the zoo systems had errors in its programming and it was not possible to modify information supporting the business area for updates on prices, hours and general information during the COVID-19 pandemic.

SOLUTION:

Our team identified the system failures, a diagnosis was made and the different vulnerabilities were repaired; In addition, the platform was migrated to a separate server to run future tests and modifications, as well as security backups.

MANIFEST OF AGILE DEVELOPMENT

We are uncovering better ways of developing software by doing it and helping others do it.

Through this work we have come to value:

Individuals and interactions over processes and tools.

Working software over comprehensive documentation.

Customer collaboration over contract negotiation.

Responding to change over following a plan.

That is, while there is value in the items on the right, we value the items on the left more.
